

Sponsorship Prospectus

2026

International Underwater Glider Conference
Perth, Western Australia

We welcome & appreciate your interest in sponsoring IUGC 2026.

IUGC 2026 will bring the global underwater glider community together for a full week in Perth, Western Australia (16 - 20 November 2026). Building on the previous success of IUGC 2024 in Gothenburg, Sweden, IUGC 2026 presents a unique opportunity to meet in the southern hemisphere.

As the premier forum to connect with customers, potential clients, and long-standing colleagues, IUGC 2026 provides a targeted platform to showcase your products and services. High-level visibility is provided through a dedicated exhibition area, as well as a technical talk session specifically designed for sponsors to present and promote their offerings.

IUGC 2026 also offers an exceptional opportunity to gain direct customer insight and needs. With time and space set aside for meaningful interaction, sponsors can engage with researchers, operators, and end users to discuss needs, gather feedback, and shape future research and product development.

Above all, IUGC 2026 is a venue to strengthen relationships, increase visibility, and solidify your position within the global underwater glider community.
